GROUP 3600

Applicant has reviewed the Office Action mailed on January 8, 2003. Please amend the above-identified patent application as follows.

EXAMINER INTERVIEW SUMMARY

Applicant thanks the Examiner for the courtesy of a telephone interview on 2/7/2003. In the interview, Applicant and Examiner discussed various aspects of the case in view of Ran. Applicant emphasized that Ran appeared to describe parameters for calculating predictive travel cost, but does not address actually associating travel costs with an expense report entry.

IN THE CLAIMS

Please substitute the claim set in the appendix entitled Clean Version of Pending Claims for the previously pending claim set. The substitute claims set is indented to reflect addition of new claims 38-47.

1. A method of using a Personal Digital Assistant (PDA) to provide travel expenses for an expense report, comprising:  
monitoring travel of the PDA travel and recording track log data points that represent the PDA travel; and  
associating a travel distance from the recorded track log with a PDA expense report entry.
